BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 92–ASW–35]

Proposed Establishment of Class E Airspace; Osceola, AR

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Proposed Rule; withdrawal.

SUMMARY: This action withdraws a Notice of Proposed Rulemaking (NPRM) published in the Federal Register on March 8, 1994 (59 FR 10760) which proposed to establish Class E airspace at Osceola, AR. The proposal was to establish controlled airspace extending upward from 700 feet above the ground (AGL). This airspace was needed to

contain aircraft executing a new Nondirectional Radio Beacon (NDB) standard instrument approach procedure (SIAP) to Runway (RWY) 19 at Osceola. The description of the proposed airspace in the NPRM was incorrectly identified as Class E surface airspace and incorrectly described the airspace necessary to contain aircraft executing the SIAP. After publication of that NPRM, a second NPRM was published with the proposed Class E airspace correctly designated, but this second NPRM was published under the same docket number. Accordingly, to avoid confusion, the first proposal published in the Federal Register on March 8, 1994 (59 FR 10760) is withdrawn.

SUPPLEMENTARY INFORMATION: On March 3, 1994, an NPRM was published in the Federal Register to establish Class E airspace at Osceola, AR. The intended effect of the proposal was to provide adequate Class E airspace to contain aircraft executing the NDB SIAP RWY 19 at Osceola, AR. This NPRM incorrectly proposed establishing Class E surface area airspace and incorrectly described the airspace. A second NPRM using the same docket number was published in the Federal Register correctly proposing Class E airspace upward from 700 feet above ground level (AGL) and correctly describing airspace dimensions required to contain Instrument Flight Rules (IFR) operations at Osceola, AR. Therefore, the proposed rule published as Docket No. 92–ASW–35 on March 8, 1995 (59 FR 10760) is duplicative, incorrect and unnecessary; and is therefore withdrawn. Since this action only withdraws a notice of proposed rulemaking, it is neither a proposed nor a final rule and therefore is not covered under Executive Order 12866, the Regulatory Flexibility Act, or DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979).
